CAMP-MEETING.

The Fourth Quarterly Meeting for Warsaw Circuit, which will be a Camp-meeting, will be held at Wesley Chapel, 10 miles north of Warsaw, commencing on 19th of August next. Travelling and Local Preachers are affectionately invited to attend. J. C. DERRICK, July 20 P. C.

The Plot Thickens.—On Monday last the delegates from the several townships in the county met at the Court-house, for the purpose of designating who should be the democratic candidates for Representative and Sheriff. There being three candidates for Representative, viz: Col. D. C. Ballou, Judge B. H. Emerson and Col. John Moore, the Convention declared in favor of Col. Ballou, as the nominee. In this connection we may as well mention that on Saturday last, Edward T. Major, Esq., announced himself as an independent anti-"caucus" candidate for Representative.

In regard to the nomination for Sheriff, the Convention was not quite so successful. After a good deal of maneuvering and wireworking, without being able to accomplish anything satisfactory to any body, the Convention broke up, leaving all the candidates free to act as they may see proper in the premises. By reference to our "candidates' department," it will be seen that there is another Richmond in the field, making only six democratic candidates for the office of Sheriff. Joseph F. Taylor, whig, is also a candidate. We have heard the names of one or two other individuals spoken of, but are unable to speak "by authority" concerning them. We presume the candidates themselves anticipate having "a pleasant time of it," as they all expect to be the successful and lucky man. A few more days will tell the story, and we will then "see what we shall see."

L. HENDRICK, Esq., Whig candidate for Lieut. Governor, has an appointment to address the people of this county on Monday next at the Court-house. Go and hear him.

Tri-Weekly Union.—The enterprising proprietors of the St. Louis Union are making the most liberal offers to their friends in order that they extend the circulation of the various editions of their widely spread sheet. We have before noticed the terms of the Weekly—they offer the Tri-Weekly to single subscribers at \$5 00 per annum, to a club of three subscribers at \$14, to a club of four, at \$18, to five, at \$20, to eight, at \$30, and to a club of ten subscribers, at \$35, or \$3 50 per copy, for a mammoth Tri-Weekly. It is unnecessary for us to say that the Union is never behind the foremost in furnishing the latest intelligence of every kind, and to those of our democratic friends who wish to be put in possession of the earliest news, we say send for the Tri-Weekly. It is the cheapest paper in the West. Subscription money from clubs must accompany all orders for the paper. Address L. Pickering & Co.

We have received the fourth annual catalogue of the Officers and Students of Howard High School, at Fayette, Howard county, Mo. This Institution is under the control of the Missouri Conference, and is in a flourishing condition, numbering for the year ending on the 14th inst., 221 pupils—viz: Male department 121, Female department 100.

Col. A. W. Doniphan, the "Conqueror of New Mexico," was in Boston at the last accounts. So say some of our exchange papers.

OSAGE RIVER ASSOCIATION.

At the last meeting of the Board of Directors for the Osage River Association, the following preamble and resolutions were unanimously adopted:

WHEREAS, Erroneous impressions have gone forth in regard to the object and design of the Directors of the Osage River Association, and whereas several clauses of the law under which said Association has been organized, have been construed in different counties, to suit the views of those persons whose only object and design appears to have been to defeat the improvement of the Osage River, on the only practicable plan which has been presented to the public, and whereas, the Directors are anxious to remove the fears and quiet the apprehensions of all the real friends of the improvement of the Osage River—Therefore:

- Be it Resolved, 1st. That the Directors of said Association, do not design exercising any Banking power whatever, nor have they any such power under the charter by implication or construction.
- 2d. That it is not the design of the Association to levy any toll or tax whatever, upon any boat, raft, or craft navigating the Osage River.
- 3d. That the Directors have not the power to involve any county in debt, which may invest money in the stock of the Association.
- 4th. That the Directors do not desire individuals to take stock in said Association.
- Resolved, That the foregoing preamble and resolutions be published, and that all newspapers in the State friendly to the improvement of the Osage be requested to publish the same.

The debate was prolonged to a late hour, when on motion of Mr. Botts,

The House disagreed to the Senate's amendment granting three months extra pay to the volunteers. On motion the House adjourned.

FOREIGN NEWS.

FURTHER PARTICULARS BY THE NIAGARA.

FRANCE.

Assassinations frequently occur in the discontented quarters of the city, by poison and by secret murder. On the person of one of the insurgents was found written in pencil, a draft of the decree, which it was proposed to issue, had the insurrection been successful.

Art. 1st provides that all citizens, who at present pay over two hundred francs taxes, shall be deprived of all civil and political rights for the space of ten years.

Article 2d provides that all property belonging to any person, who shall have exercised any public function since 1815, shall be confiscated.

By article 3d the Constitution of 1793-4 was to be re-established.

The army was to be disbanded. The estimates of the killed it is found differ very widely; it will probably amount, counting the loss on both sides, to fifteen thousand persons.

Over forty thousand were engaged in the conflict on the part of the insurgents alone.

AUSTRIA.

We learn that Vicenza has been returned to the Austrians. Padua has capitulated to them and an imperial army is now blockading Trieste.

The Lombards had been defeated near Verona.

It is rumored that an Austrian army had been ordered to invade Russia.

Miscellaneous.—There had been commenced in Spain a formidable movement in favor of Don Carlos.

Little doubt remains but that there is an immense Russian army marching on Poland to quell the disturbances which the Polish patriots have caused in

struggling for liberty.

There exists now every prospect of a speedy termination of the war between Denmark and the two German duchies of Schleswig and Holstein. A new constitution for the two duchies had been drawn up, which it is thought will be adopted.

The rebellious disposition which has lately been manifested in Greece, has been completely quelled.

The Danes continue making reprisals on Prussia by sea.

The departments in France generally speaking are tranquil.

Every woodenleg which supplies the loss of limbs lost in battle, is a stump speech against all war.

A negro, while undergoing an examination at Northampton, Mass., was asked if his master was a christian, replied,—"No, sir, he is a member of Congress."

Or are you discouraged from repeated failures with quinine, or other violent remedies, administered in the form of pills? If so, have immediate recourse to the use of "Smith's Tonic Syrup or Vegetable Purgative," which insures speedy relief, without entailing upon the system the Ague Cake, General Derangements, &c.

You will find at Brown & Dunn's.

Dr. Bragg's Pills Triumphant!

Further Evidence—Great Excitement and Panic amongst the Colored Doctors—Disastrous consequences of the use of Mineral Medicines—Timely intervention of Indian Queen Vegetable Sugar Coated Pills to save a whole neighborhood from the awful ravages of that fell destroyer, Disease, in the forms of Ague, Bilious, Congestive and Typhus Fevers—Read and be convinced!

VAS BURNS, Ark, April 15, 1848.

Dr. Bragg—Dear Sir: During the past summer and fall, the various forms of bilious Fever were very prevalent and often fatal in this section of country. Our worthy non-such physicians, puffed up with pride and vain conceit, persisted in their antiquated practice with such unbounded success, that one or two, panic-struck, scampered off and left their patients with nature and her ineffectual efforts to repair the mischief they had done. In one family, four cases resulted in death, in the short space of four days; in some cases three or four days after the exhibition of calomel, great prostration, tympanitic condition of the abdomen, and perforation of the bowels were the result of this heroic treatment, and to prevent so terrible a repetition of the fact, after finding their practice altogether ineffectual, they came to the wise conclusion to give no medicine at all, but continue to visit their patients, and order flavoured tea as a drink, and a portion of the sumptuous food to the bowels; when this failed, with sage look, and little faith, & hearts full of apprehension, they would confess their hands their full confidence in the support of our blisters from head to foot—you may guess the result.

Articled physicians and unscrupulous confectioners, one of your town, and one passing through our neighborhood, made liberal doses of your vegetable medicines, and distributed pamphlets, and the result was to shed a gloom and benighted light upon this benighted, and apparently devoted land. The human sent to the Children of Israel, in the wilderness, was not halied with more hearty thanks than were your health-restoring Pills in this awful crisis. The people were prepared to receive them, or any thing that promised them relief from their apparently impending fate. I have watched their progress, and the effects they produced in hundreds of cases, and am happy to give my feeble testimony to their entire and triumphant efficiency, in restoring health, in a few days, in every instance, when they have been taken in time, and in strict accordance to directions. Some of our physicians, whose love of truth and philanthropy triumphed over prejudice and preconceived theories, have cheerfully abandoned their calomel and lancet, and recommended your pills in all cases of bilious, intermittent, remittent, congestive and typhus fevers; and they freely acknowledge that they are almost a specific in all these diseases. Your travelling agent is anxiously looked for again, as many of your agents are out of pills, and the sickly season is approaching.

With best wishes for your success, I am truly yours,

H. CUNNINGHAM.
